

## ELab LIMS

The Ideal LIMS for  
Your Laboratory

### SOLUTION OVERVIEW

LabLynx ELab LIMS is a flexible, scalable, configurable LIMS that can be moulded to your lab's specific workflow. Our team of laboratory experts and application engineers work with you to adjust our system into a solution that meets your needs.

As part of that, we've made ELab LIMS cloud based and browser agnostic. You can access it anywhere, anytime – including on laptops and mobile devices. With this flexibility also comes strong security practices. Our team takes cyber security and regulatory compliance very seriously. ELab LIMS is HIPAA, ISO 17025, CLIA, CAP, GALP and CFR part 11 compliant. Also, our cloud infrastructure is housed in a state-of-the-art data center, certified to the highest SSAE SOC 2 standards.
